
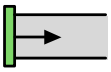
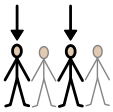
Welcome back to school! We have missed you.

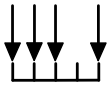
Schools were closed and lots of shops were closed. Lots of people

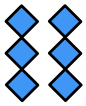
were ill because of a virus. Because people stayed at home

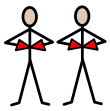




it is beginning to go away. Some children can now go back to

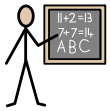




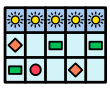


school. Lots of things will be the same at school - we can

see friends, have fun and learn. Some things might be



different - I might have a different teacher, classroom or



timetable. School will be different but this is ok.

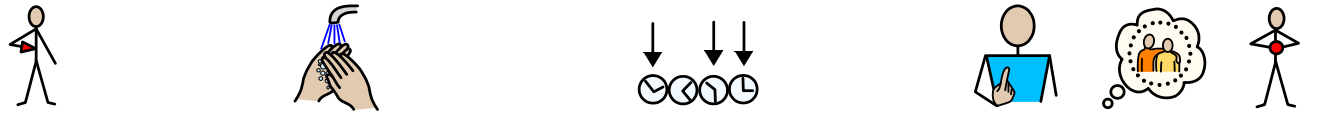
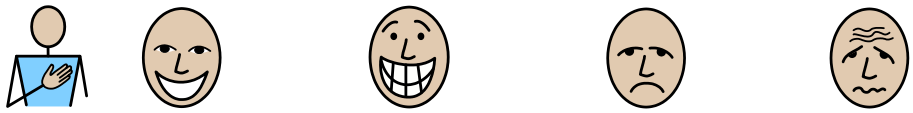
Meadowfield Inclusion Development and Support



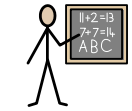
I will wash my hands more often to keep me safe. My

teachers will tell me when things are back to normal. I



might feel happy or excited or sad or anxious or even a

mixture of emotions. This is ok. I can talk to my family or



teachers about it.
