If you have any
questions please
speak to your child's
class teacher.

We Are All Special Here

HOME LEARNING

SEPTEMBER 2021

- ♦ Learning at home helps to consolidate the skills taught in school and consolidates the new knowledge.
- ♦ Learning at home creates a partnerships between school and family.
- ♦ Home learning gives you an insight into what your child is learning at school.
- ♦ Home learning helps to develop good working habits for lifelong working.

As the introduction of 'Seesaw', our remote learning platform proved very effective with home learning during COVID restrictions such as being able to share your child's learning both in school and home, we have decided to maintain it's use for home work.

The class home learning page on the school website will no longer exist. You can continue to find suggested learning activities for your child on the website home learning page.

- ♦ Class teachers will set termly home learning projects available by end of week 1 of the current term.
- ♦ These topics will correspond with teaching and learning happening at school.
- ♦ Learning activities set will include a broad range of activities including English and Maths.
- ♦ Activities will include clear learning objectives and instructions.
- ♦ Teachers will mark 1 or 2 pieces of your child's work per week and give your child feedback.
- ♦ All parents have a Seesaw log-in to support their children. If you have not received this please let your child's teacher know.
- ♦ You can view our Homework policy on our school website.
