

Parent/Carers

17th November 2021

Dear Parent/Carers

Nursing Cover / Training Update – Clinical Interventions

We hope this letter finds you and your families well.

As you are aware we have an NHS nursing provision within Meadowfield School. We just want to give you an update regarding student medical interventions, (not including emergency procedures).

At present the nursing team train and ensure staff competencies for two staff members per student per current class team (Except in exceptional circumstances), this is to ensure that clinical interventions are delivered by school staff who are familiar with and regularly carry out those interventions for individual students and ensures safe practice for your child. This is constantly under review.

With this in mind, if the two members of staff who are trained to carry out clinical interventions on a student are off sick or absent at the same time, it may be necessary for the school to contact parent/carers to come into school and administer these clinical interventions.

Please do not hesitate to contact me if you have any questions or concerns, which I will raise and discuss with the nursing team.

Yours faithfully,

Caroline Jaques

Caroline Jaques
