

**Welcome**

**Back to School**

**We have missed you!**

Schools  
were closed

# Why schools and some work places were closed?

Coronavirus was traveling fast from one person to another.

If many people were close together in the same place, it made it easy for the virus to spread.

 **STAY AT HOME**

**PROTECT THE NHS**

Our government closed schools and most work places, to keep us safe and stop the virus spreading.

What are viruses?

- **Viruses** are microscopic organisms, they are much smaller than bacteria.
- They can't live outside of a living body.

# Have you ever had a cold or flu?

Most of the time people are healthy and feel well.

Sometimes people become unwell because of a cold or flu.

Colds and flu are caused by viruses.

Coronavirus was a new virus that many people caught in every country.

Most people had to stay at home

Some people  
went to  
work...

# Why some people went to work?

To find a vaccine

To sell food

To grow our food

To look after us if our parents had to work

To give our post

To make people better

To sell groceries

To make deliveries to shops

To keep prisoners safe

To keep us safe

Because most people stayed at home the virus is not spreading quickly anymore.

SCHOOL IS OPEN

$$F = \frac{q_1 \cdot q_2}{4\pi \epsilon r^2}$$

There will be things that are the same and things that will be different at school for a while.

# This is my timetable...

Insert time table here

# What will be the same at school?

We will see  
friends

We can learn

We can have fun

We can feel  
excited

We will see  
teachers

We can feel  
happy

School will look different.  
This is ok.

I will need to  
keep in my own  
space

We might have  
a different  
teacher and  
children in our  
class

I will sit at my  
own desk

We might be in  
a different  
classroom

Our classes will  
look different

I will have my  
own pencil,  
ruler, rubber and  
everything else I  
need on my desk

Our timetable  
might be  
different

Playtime and  
lunchtime will  
be different

Some parents,  
teachers and  
children might  
wear masks

Some of my  
friends might  
be at home

I'm going to wash my hands more often.  
This will help keep me safe.

My teachers will let me know when things are back to normal.

- If I have any questions I can ask my teacher.

I might feel mixed emotions

I might feel anxious this is perfectly normal.

If this happens I can talk to my family, teacher and TA.

This will help me feel less anxious.

I might feel excited this is perfectly normal too.

I might be happy to see my friends.

I might be happy to see my teachers.

I might be happy to get back to school.

I might be happy to have more to do again.

How I am feeling...

What I can do to help me?

What you can do to help me...

Things will get back to normal...
